

UNIT 24 REVIEW TEST LISTENING SCRIPT

Caroline: Hey Anthony. Was that your mom on the phone?

Anthony: Yep, that was her.

Caroline: Oh cool. I heard that she's a really successful businessperson. Is that true?

Anthony: It is.

Caroline: That's cool. What kind of work does she do?

Anthony: Well she doesn't work anymore. She sold her company a few years ago, and now she doesn't do much.

Caroline: Really? She probably made a lot of money. That's awesome.

Anthony: Yea, she started a software company about 30 years ago. Her company made online games. At first, she didn't make much money and she worked all the time. But then, people used the Internet more. Her company was one of the first online game companies. Many people liked to play her company's games. So, her company received a lot of money from other companies. Those companies wanted to advertise. They gave my mom money to put their company names on her website.

Caroline: Oh wow, that's interesting.

Anthony: Yea. Then cell phones were popular, so her company made games for phones. Her company expanded very quickly.

Caroline: I'd love to meet her.

Anthony: You can. She said that she wants to take me out to dinner tonight. Do you want to come?

Caroline: Sure! Is it a really nice restaurant?

Anthony: Yea, she usually takes me to really nice places.
