

UNIT 22 REVIEW TEST LISTENING SCRIPT

- Adam:** Hey, Mira. Did you hear about the new changes to campus rules?
- Mira:** Hey, Adam. Yea, I heard the university is going to ban smoking on campus next year. What do you think about that?
- Adam:** I'm totally for it! I don't like smelling and breathing smoke on my way to class. And smoking is not healthy for anyone.
- Mira:** Yea, I think it's a great idea, too. I also think the campus is going to be cleaner. So many smokers just throw their cigarettes on the ground. (pause) The university also announced that it is going to build a new fitness center on campus. What do you think of that?
- Adam:** I'm not sure what I think. There are good things and bad things about it. How about you?
- Mira:** Well, I'm against it. The university is going to increase our tuition to pay for the fitness center. We come to school to study, not to exercise and play sports.
- Adam:** Well, there are a lot of good things about having a fitness center. Students often have a lot of stress because of tests. Exercise can decrease stress. If students are less stressed, they are going to learn more. And they will be healthier.
- Mira:** That's a good point, Adam. But I still don't like the tuition increase to pay for it.
- Adam:** Yes, me too. Every year tuition goes up. University is so expensive, and now it's going to be more expensive.
- Mira:** I know. Where does all the money go? Professors don't receive a lot of money, and some of our classrooms are pretty old.
- Adam:** That's a really good question. I am going to find out.
