A have to

B musted

C had to

8 You _____ miss more than three classes.

A don't have to

B must not

C have to

PART 2**Choose the correct word or words to complete the letter.**

Hi, Aunt Lynn!

I recently **(1) had to / have to / has to** pick a plant to take care of for a science project. I picked a cactus, and I **(2) must tell / don't must tell / must to tell** you how much I have learned about this plant. I know you love plants too, so I think you should give a cactus a try. Here's why. Cactuses are attractive, and they're easy to care for. They don't need a lot of water, so you **(3) no have to / don't have to / haven't to** spend a lot of time watering them. Cactuses grow well with a lot of sunlight. So, you **(4) have / have to / has** put your cactus plants in a place that gets direct sunlight. Cactuses also need nutrients. Many plant specialists agree that one **(5) have to / has to / musts** give them nutrients every other week. One big mistake people make is giving cactuses more water than they need. You **(6) don't must water / no must water / mustn't water** your cactus plants very often. If you do, they might die. You **(7) don't must / don't has to / don't have to** give your cactuses water until the plants begin to look dry. So, Aunt, Lynn, if you want an inexpensive and easy plant, you just **(8) must to get / have to get / don't have to get** a cactus.
