

UNIT 12 REVIEW TEST LISTENING SCRIPT

- Mike:** Hi Katie!
- Katie:** Hey Mike!
- Mike:** I thought you were in France. What are you doing back here in Maine?
- Katie:** Yes, Mike, I still am. I just came home for vacation. I've been living there for the past few months.
- Mike:** Wow, that sounds exciting! How is it? I've always wanted to go.
- Katie:** Well, I've only been getting a few hours of sleep at night. My school team has been working day and night since we started working on our project...
- Mike:** So... what have you been doing there?
- Katie:** My university sent my team to France to design and build a home that is good for the environment because climate change and global warming are very important issues now. We've been designing a home that uses solar energy and is very energy efficient and beautiful. I'm learning a lot and doing a lot of important work for my university.
- Mike:** That's great. Are you also learning a lot about French culture as well?
- Katie:** Yes, I am. My French has also improved a lot.
- Mike:** I bet you've gotten a lot better since we studied French together in high school. I've forgotten everything. Have you been taking any more classes?
- Katie:** Kind of. I've made some local friends. I've been doing language exchanges with them. They can practice English with me, and I practice French with them. I feel a lot more comfortable in social events since we started.
- Mike:** It sounds like you haven't been bored since you arrived in France!
- Katie:** I've been having a wonderful time. I'm thinking about transferring to a university in Paris when the project ends because I'm not ready to move back to America.
