5 Natalia _____ (**live**) in San Francisco. She only moved to the city a few years ago.

NAME _____ DATE _____

READING

PART 3

Read the article about The High Line in New York City. Then choose the correct answers.

The High Line, an urban public park in Manhattan New York City, is one of the most popular destinations for locals and tourists all over the world in recent years. It is a unique park because the High Line used to be railroad tracks on the lower west side of the city for trains to ship freight directly to factories and unload goods inside the buildings back in the 1930s. To make them safer at their busiest times, the railroads used to hire “West Side Cowboys” and the “cowboys” would ride horses and wave flags in front of the trains. Nowadays, the High Line is an incredible city landscape of tree-lined walkways. People are spending a lot of time here: taking walks or jogging, hanging out with friends, enjoying food at nearby markets, taking photographs, creating artworks, and even holding parties. The High Line is a part of their life.

You may wonder, “how did it change?” A group of residents in the neighborhood called *Friends of the High Line* helped turn the High Line into what it is today. In 1999, this non-profit organization wanted to keep the historic train tracks and reuse the public open space. The government never used to think of rebuilding the unused railroads and wanted to remove and take down the entire structure at that time. With all the effort from *Friends of the High Line*, the transformation of the High Line started in 2002 with a design competition. The most creative designers put years of planning and construction to make it one of the most successful urban planning cases in the history.

Today, the High Line is a sustainable park with its own self-seeded plants and watering system. Who could imagine that the High Line used to be called “Death Avenue” with many traffic accidents? Who could believe the High Line used to be a polluted area less than a century ago? Only the rail tracks know exactly what has changed.

- 1 Which sentence best describes the author's purpose in writing this article?
 - A to describe how much the High Line has changed over time
 - B to discuss the importance of preserving a historic place
 - C to convince people to come and visit the High Line
- 2 The information in the second paragraph suggests that:
 - A the designers contributed the most to the High Line.
 - B the High Line is the most successful urban planning case in the world.
 - C the High Line could have been taken down without the effort of local people.
- 3 In paragraph 3, the author refers to “only the rail tracks know exactly what has changed” because he / she wants to show that _____.
 - A people shouldn't keep the old rail tracks
 - B the High Line has been transformed dramatically over the years
 - C the trains can still run in the High Line

NAME _____ DATE _____

LISTENING**PART 4**

Listen to the conversation between Madison and Kai. Then choose the correct answers.

- 1 Which sentence best summarizes the conversation?
 - A Two friends make plans to play basketball.
