- C if had I changed

8 She asked what _____.

- A languages I spoke
- B languages did I speak
- C languages I'm speaking

PART 2**Complete the passage. Choose the correct answer.**

In July, Rick decided to take a vacation to the beach. He asked his well-traveled friend Tim **(1) where he goes / where should he go / where he should go**. Tim said he had gone to a place called Sea Breeze Resort a few years earlier, and he said it was a lot of fun. Rick **(2) ask him / asked him / asked to him** if he had any information about the place, but Tim told him to call the resort for the most accurate information.

Rick called Sea Breeze Resort and asked the receptionist **(3) how much a room cost / how much did a room cost / how much will a room cost**. He also asked **(4) what types of rooms they had / what types of rooms they have / what types of rooms did they have**. She told him that a package trip for seven days/six nights would cost only \$750 for a standard room, and \$950 for a suite. He asked her **(5) what he could do / what could he do / what could he to do** at the resort, and she said, "We have so many activities you won't be able to do them all!" Rick was excited, and asked the receptionist if **(6) he can book / could he book / he could book** the package over the phone.

Rick left for Sea Breeze Resort the next week. When he arrived at the resort and tried to check in, the receptionist told him that his name was not in the registry. He asked her **(7) if she check / if she can check / if she could check** again. She checked and told him, "I'm sorry, but your name is not registered". He told her he could get the registration information from his backpack. Suddenly he realized that he had left his backpack in the taxi that brought him to the resort. So he asked the receptionist **(8) to / that / whether** he could use the phone. He called the taxi service, and two hours later the taxi arrived with his backpack. He found the registration information and was finally able to check in. "Now may I please have the keys to my room?" he requested. She replied, "I'm sorry, sir, but we don't have any clean rooms right now." Rick had to wait two more hours for his room to be ready!
