Subject: Trouble sleeping

Dear Dr. Read,

You instructed me to get in touch with you if I had any problems sleeping over the next few weeks. Well, my family and I are currently vacationing in Hawaii right now, and I haven't been sleeping well at all. I go to sleep at a reasonable hour, and I'm not eating anything after 7 p.m. I've also been taking those pills that you advised me to take when I have trouble sleeping, but they don't seem to be having any sort of effect. And every day I'm here in Hawaii, tired, and it's difficult to have a good time because I'm not getting enough sleep! Please let me know what I can do.

Thank you,

John Rigby

Subject: RE: Trouble sleeping

Hi John,

I'm sorry to hear that you're having trouble sleeping while on your vacation, but remember I told you that it's more difficult sleeping in new places like hotels and friends' houses? So, it's really no surprise that you're having trouble sleeping because of the new location. What is surprising, however, is that the pills aren't working. I remember having told you to take two pills if one pill wasn't effective—are you sure that you are taking the right amount? Also, the air in Hawaii can be quite humid. I said that it is sometimes more difficult sleeping in humid rooms, so that might be causing some of your troubles as well. I even told you to get a dehumidifier for your home. Perhaps you can ask someone at the hotel to supply your room with a dehumidifier. Other than that, I'm not sure what else to tell you. I hope you're able to get more sleep, and do see me when you get back.

Best,

Phillip Read

SPEAKING**PART 5**

Read the transcript from Dr. Read and John's conversation. Then report Dr. Read's advice and John's questions using indirect speech and a variety of different verbs.

John:	"Dr. Read, please tell me what I can do to sleep more."
Dr. Read:	"John, you might not be falling asleep easily because you still have a lot of energy when you lay down for bed. So, you need to exercise more."
John:	"Can you prescribe me any medication?"
Dr. Read:	"Sure I can. But you should only use the medication as a last option. Remember not to eat within four hours of going to bed. Also, do you drink much coffee or soda during the day?"
John:	"I don't drink any soda, but I do drink some coffee."
Dr. Read:	"Ok, well, be sure not to drink coffee after 5 p.m. It can keep you up. And lastly, don't bring your cell phone into bed with you. You need to reduce the number of things that can distract you."
John:	"Sounds good, doctor."

WRITING**PART 6**

Think about a time when you got good advice from someone. It could be from a family member, a close friend, a teacher, etc. Then write a couple of paragraphs about the advice. In the first paragraph, explain the problem and the questions you asked. Then in the second paragraph, report what advice your family member, friend, teacher, etc., gave to you. Use indirect speech in your response.
