READING**PART 3****Read the news article. Then choose the correct answers.**

Today in Bridgewater, an ongoing argument ended with the city government's approval of a new 30-story apartment building. The building is part of the mayor's goal to make Bridgewater a more attractive place to live. The mayor held a meeting to discuss the concerns of the city's residents, who are worried that the new building will cause their rents to go up and the city's cost of living overall. The CEO of the construction company, Eleanor Altadena, was also on hand to answer questions. Altadena assured residents that the new building would create opportunities for people in Bridgewater; for example, new jobs, business opportunities, and apartments with mid-range rents.

She promised that by the time the building is finished, 150 affordable apartments will have been built. Because Altadena's company will hire local builders, more than 250 new jobs will have been created by the time the project is complete. She also explained how commercial space such as for stores will be built on the ground floor, giving residents the opportunity to open their own businesses. She encouraged everyone at the meeting to think about taking the initiative and going into business for themselves.

Many residents also expressed concern that the new building would block their beloved views of the river. Altadena admitted that homes located behind the new apartment building would lose their view, but she promised that her company would build a beautiful new park in front of the river, and that the park would be open to all residents of Bridgewater.

The construction is scheduled to begin early next year on the waterfront, near the closed-down steel factory. In fact, part of the steel factory will be preserved and converted into an indoor food market, with the goal of making the neighborhood a livelier place to spend time. Residents left the meeting with a clearer picture of the city's plans, and with fewer concerns about the status of their hometown.

- 1 Which of the following is true about the new apartment building?
 - A The mayor does not want it to be built.
 - B It will create jobs for people in Bridgewater.
 - C It won't affect any residents' views of the river.
- 2 Which of the following best reflects the purpose of the news article?
 - A to describe how worried the residents of Bridgewater are
 - B to persuade residents that the new building is a good idea
 - C to report on the latest development in an ongoing news story
- 3 By the end of the meeting, the residents probably feel _____.
 - A less worried about the building
 - B excited to open their own businesses
 - C angry that their opinions are not being heard
