

NAME _____ DATE _____

REVIEW TEST: UNIT 12**GRAMMAR****PART 1****Choose the correct answer to complete the sentence.**

- 1 In our class _____ a computer. Every student has one computer for themselves.
A each student has
B most students have
C some students have
- 2 The _____ of money you need to buy that house is unimaginable.
A amount
B number
C great many
- 3 Andrés doesn't have as _____ spare time as he used to.
A some
B many
C much
- 4 Jenny is having _____ difficulty finishing her project, so she asked Amanda to help her.
A little
B a little
C enough
- 5 It's unlikely that you'll have _____ problems completing this task, but if you do, please feel free to email me.
A any
B some
C plenty of
- 6 It takes a great _____ motivation to make it through a PhD program.
A number
B many
C deal of

NAME _____ DATE _____

- 7 Frank has _____ stress in his life now that he's found a job.
- A fewer
 - B less
 - C a little
- 8 Amir has _____ friends, so he doesn't really have anyone to turn to during hardships.
- A a few
 - B few
 - C plenty of

PART 2

Choose the correct answers to complete the paragraphs.

Students in one middle school classroom haven't picked up **(1) any / some / much** books all year. Instead, **(2) each / most / every** of Kate Peterson's sixth-grade students carries a pocket computer. There is **(3) few / little / a little** need for backpacks and lockers here. Sound expensive? It's not. Peterson saves the school money by not having to buy textbooks or make photocopies. She also says she has **(4) a bit / less / fewer** homework to take home at the end of the day, and she spends less time grading it.

According to Peterson, the students took **(5) no / any / some** time to get used to the computers, but now they have few problems. It goes without saying that these students are getting lots of exposure to computer technology. Indeed, **(6) many / enough / a great deal** of them say they want to work with computers when they grow up.

But going paperless may not work in **(7) all / most / every** classroom. Few other schools have made textbooks available online, and even fewer would be able to acquire pocket computers for each student. Nevertheless, there is **(8) many a / a great many / a great deal of** potential for integrating computers into classrooms in other ways.

NAME _____ DATE _____

READING

PART 3

Read the email. Then choose the correct answers.

Hi Elías,

Thanks for checking in on me to see how med school was starting off. Things have been a bit difficult so far. I thought getting into med school was hard, but there is a great deal more work compared to my undergraduate studies! Even though I'm only taking a few classes in this first semester, I'm spending so much time on each class. Who would have thought molecular and cellular biology would be so hard? I excelled in my undergraduate molecular biology and cellular biology courses, so that makes things a little easier, but there are just so many new things that are presented at this level of study. The only course where I feel a bit more comfortable is Metabolism and Nutrition—I think that's because I majored in nutrition though! I can't even begin to imagine what the workload next semester will look like. I know I'll have to take some required courses including Neuroscience, which should be quite interesting, though I heard it's a lot more challenging than the other courses I've taken so far.

Other than med school, things are going well. I've begun to get out and explore Chicago a bit in my free time (though there's not much of that with all the work!), and I have to say, the architecture in this city is amazing. It's as if all the world's most famous architects were permitted to design whatever they wanted to. I was reading that after the Great Chicago Fire in 1871, which destroyed many, if not all, of the city's buildings, the city committed itself to being a "playground" for modern architecture. So that's why the city's architecture is so unique and varied. What most impressed me was the Merchandise Mart, a steel-framed building that was once the largest in the world in terms of total floor space. Like other Art Deco buildings in Chicago, and the rest of the world, geometric shapes define its interior and exterior design, and represent the optimism of the post-World War I period. I had also never heard of it before, unlike the Willis Tower and the John Hancock Center. Anyway, I learned this all on a walking tour I went on a few weeks back. You should come out for a visit so we can take the boat tour together—I've heard it's amazing and you get a much different perspective on many of the most famous buildings.

Anyway, I hope your last year of law school has started off well. I know you've said the last year is supposed to be the most difficult, but you'll figure it out! Email me again and let me know how you're doing when you get the chance.

Lucia

- 1 Which sentence best summarizes Lucia's email?
 - A She is trying to persuade Elías to come visit her.
 - B She is looking to get an update about Elías' life.
 - C She is updating Elías about life in Chicago.
- 2 Based on the email, it can reasonably be inferred that Elías wrote Lucia _____.
 - A to ask her about how medical school was going
 - B to tell her about his last year in law school
 - C to find out more about Chicago's architecture

NAME _____ DATE _____

- 3 Which statement best describes Lucia's experience studying?
- A Her studies as an undergraduate did not prepare her at all.
 - B She expects next semester will be a bit easier than this semester.
 - C There are few courses that she feels confident about.
- 4 According to Lucia's email, which of the following is true?
- A A great deal of Chicago's buildings are Art Deco.
 - B The Merchandise Mart is the largest building in the world.
 - C Many Art Deco buildings use geometric patterns in their design.

LISTENING**PART 4**

Listen to the conversation between Fred and his academic advisor, Dr. Sanders. Then choose the correct answers.

- 1 Which sentence best summarizes the conversation?
- A Fred has come to Dr. Sanders to get some advice on school.
 - B Fred is upset because he doesn't think he deserves the grades he received.
 - C Fred and Dr. Sanders are discussing the benefits of a well-rounded curriculum.
- 2 Fred mentions that he has made _____ friends.
- A no
 - B a few
 - C a lot of
- 3 _____ that there is more to do in New York than in Colorado.
- A Fred thinks
 - B Dr. Sanders thinks
 - C Both Fred and Dr. Sanders think
- 4 Why is Fred having trouble with his classes?
- A He's finding that they are a bit boring.
 - B Other students are smarter than he is.
 - C He doesn't study for the classes enough.

NAME _____ DATE _____

5 According to Dr. Sanders, why should Fred try to excel even in the classes he doesn't like?

- A because the foundation classes are important for finance and economics
- B because critical thinking is important for anything he does in the future
- C because succeeding in these classes creates more opportunities in the future

SPEAKING

PART 5

What type of student are you? Are you someone who plans their studying and studies consistently throughout a semester? Or do you leave everything until the last minute and then cram before tests? Describe your study habits. Consider the following in your response:

- Your study habits
- The amount of time you spend studying per week
- Whether you study mostly alone or with others
- The methods you use to remember information
- Anything else that you think is important for learning
- Remember to use quantifiers with nouns and pronouns

NAME _____ DATE _____

WRITING**PART 6**

The chart below contains the survey results from a study of 118 freshman students' study habits at a local university. Read through the results on the chart, and then write a summary of the information it provides. Highlight what is interesting to you and why these points are interesting. Remember to use quantifiers with nouns and pronouns in your response.

Statement	Number of students who agree	Number of students who are neutral	Number of students who disagree
I am satisfied with my academic performance	65	—	53
I study more than two hours outside of class for every hour I spend in class	39	—	79
I make a schedule for how much time to spend studying for each class	22	—	96
Study groups help my learning	87	14	17
Studying and doing assignments in quiet is better than studying while listening to music or watching TV	40	12	66
Having a healthy lifestyle such as exercising and eating healthy foods benefits my learning	31	33	54

[illegible]
