Big English 2nd edition builds on the firm foundations and big ideas of the first edition and brings exciting new features and components to help young learners progress and communicate confidently.

Big TV is a collection of authentic new videos linked to the Student's Book themes which are designed to motivate and engage learners with real-world content.

The Big TV Workbooks exploit the authentic video content and focus on critical thinking by extending the Student's Book CLIL and culture sections and providing new opportunities for additional projects.

Big TV videos are available at: **english.com/login**
