HOW IT WORKS

The Duolingo English Test uses the latest technology to make the test accessible, accurate, and secure. The test was developed by language testing experts using artificial intelligence (AI) to offer a modern testing experience built on research.

Accessible

In addition to being available online, on demand, the test is a computer adaptive test. This means that the difficulty of the test questions changes based on each test taker's performance. You can receive an accurate score in under 1 hour of test taking.

Accurate

Scores are calculated by the grading engine, which is trained to understand language ability the same way that expert human raters do.

Secure

With the help of AI, multiple human proctors detect instances of rule breaking.

Results are available in 2 days and include your overall score, subscores, and an ungraded video and writing sample. These can be shared with an unlimited number of institutions for no additional cost.

WHO ACCEPTS THE TEST

The Duolingo English Test is used as proof of English proficiency by institutions and employers around the world. It is recognized by thousands of universities in over 50 countries, and it is commonly accepted for admissions, placement, progress, or exit requirements.

Get ready for the test

Overview
In this section, you will learn about test preparation and readiness for the Duolingo English Test. You will read about ways to get to know the test, tips for practicing your English, and suggestions for planning your test taking experience.

ABOUT TEST READINESS

Duolingo is a language learning company with a mission to lower barriers to education for everyone. For that reason, “test prep” for the Duolingo English Test may be a little different than what you’re used to.

When people think about test preparation, they picture long hours studying, expensive resources, and memorization. These practices create a lot of pressure to perform well, which can lead to testing anxiety and an overall negative experience. That kind of test preparation isn't necessary for the Duolingo English Test. Instead of test preparation, think more about the process of getting ready to take the test, or “test readiness.”

Minimizing stress

This is a test that’s designed for you. Take it any time, anywhere, when you’re ready. Hopefully the flexible schedule, low cost, and lack of traveling to a test center will help minimize stress, so you can stay focused on doing your best on the test.

Learn English, not an English test

You do not need special preparation in order to do well on the Duolingo English Test. No need for memorization, rehearsal, or expensive classes. The Duolingo English Test is designed to show your real proficiency level in English. Intense studying right before the test will not change your score. Your score will improve as your proficiency improves.

Free test readiness resources

No matter how convenient and affordable the test is, there will always be some stress associated with testing. That's why there are many trustworthy resources to help you become comfortable with the test in advance. All the information you need is online, for free at englishtest.duolingo.com.

HOW TO LEARN ABOUT THE TEST

There are many ways that you can experience what it's like to take the Duolingo English Test before you begin your certified test.

Try the following resources:

- Read this guide and complete the practice questions included at the end.
- Take the free Duolingo English Practice Test as many times as you want by going to englishtest.duolingo.com/quick. (Keep in mind that the practice version is shorter and unproctored. Your reported score range on the practice test is an estimate and not as accurate as the real test.)
- Watch the test walkthrough video to see a test taker complete the entire experience at go.duolingo.com/walkthrough.
- Watch YouTube videos from the Duolingo English Test channel and playlists.

HOW TO PRACTICE ENGLISH

The best way to prepare for the test is to immerse yourself in English as much as you can. There are many ways you can practice English language skills leading up to the test and to prepare for studying or working in an English-speaking environment.

When teaching or learning a foreign language, many people focus on Speaking, Writing, Reading, and Listening skills. Here are some of our favorite tips for practicing those skills, shared from the Duolingo blog (blog.duolingo.com).

Speaking

- Take advantage of time alone or at home to do a little talking to yourself in English. Narrate what you're doing, think out loud about plans, or challenge yourself to describe favorite traditions or childhood memories! A big component of speaking is retrieving words from memory, and you can do this kind of practice on your own from anywhere.

© Duolingo, Inc. All rights Reserved | Mar. 2021

- When you watch movies or videos in English on your own, repeat what you hear to give your tongue and brain some practice with the new sounds. Write down or record especially funny lines or catch phrases to incorporate into your around-the-house speaking practice.
- There will be some sounds in English that will feel especially tricky to get right. If you're having trouble with a sound or particular set of sounds, chances are good that others are struggling with them too. Search online for guides and videos that have extra information to help your pronunciation.

Writing

- For fast and easy practice, try writing your shopping list in English. If you keep a list of tasks for each day, you can also try writing that in English.
- On your phone or computer, install a keyboard in English so you can practice using English to text, search, and post on social media.
- Make a friend at a Duolingo Event (events.duolingo.com) or in the Forum (forum.duolingo.com) and become text pen pals!
- Find online communities and groups that use English, and spend some of your social media time writing quick responses in the language. Soon you might be writing even longer messages!

Reading

- Read blogs, follow social media accounts, and join groups with posts in English.
- Read articles and news in English. You'll often be able to rely on your general knowledge of current events to help you understand.
- Read Wikipedia and books in English, maybe starting with topics you're already familiar with. You can also read your favorite books in the English translation.

Listening

- Listen to music in English. Music is catchy, has a lot of repetition, and helps you learn useful phrases in a memorable context. Look up the lyrics to check what you hear!
- Watch shows or movies in English by switching the language of the audio. You can check out movies originally made in English, and you might be able to find options that are subtitled into the language.
- Find apps or podcasts in English. Look for options related to news, sports, history, fashion—any topic you like to hear about in your own language! Some apps may have helpful videos, too.

HOW TO TEST YOUR BEST

Because you can choose when and where you take the test, you should take it when you feel your best mentally and physically.

Make sure you're comfortable and recharged

- Plan to take the test at the time of day when you perform best.
- Sleep well the night before.
- Use the bathroom before the test.
- Drink enough water before the test. (But remember you can't step away from the computer once you start, so again, use the bathroom before the test!)
- Have a brain-boosting snack.

Get in the right mindset

- Read or watch something in English.
- Try an English-language meditation to get calm and focused.
- Do some exercise or calming physical activity before the test.

Ensure privacy

- Put any devices in another room and turn them off.
- Put away any pens and paper. Taking notes is against the rules.
- Warn anyone in the area not to disrupt you.

Check equipment

- Make sure your computer is sufficiently charged or plugged in.
- Verify that your internet connection is strong.
- Check that your ID is not expired.
- Take your headphones off and put them in another room.

HOW TO PACE YOURSELF

Go at your own pace when preparing for the test. Because the test is designed to measure your English proficiency rather than your knowledge of the test, you could take it right now if you wanted to!

Before the test

- The first thing you should do is create a free account on englishtest.duolingo.com. All you need is a valid email address.
- Become familiar with the test by exploring your online account. In addition to this guide and the practice test, you will find many other free resources.
- In the days leading up to the test, increase your practice of English as much as possible.
- Know exactly when and where you will want to take the test, and get your space and equipment ready.

During the test

- Right before you start the test, use the advice above in "HOW TO TEST YOUR BEST" to get in the right mindset. Don't forget to refresh your memory of the rules for test taking.
- While taking the test, don't look away from the screen or exit out of the test application. Try not to look at the timer too often.
- After you finish, wait until your test has completely uploaded before leaving the Duolingo English Test desktop app. You will see a notification on the screen when your results have been uploaded.

After the test

- Within 48 hours, you will receive your score report. You can view your results from your online account.
- You can start sending scores as soon as they're available to you.
- There is no pressure to decide which institutions will receive your scores or when—you can send them to as many institutions as you want, for no additional cost.

Test structure

Overview
In this section, you will learn about the format, individual sections, and length of the test. You will also learn more about computer adaptive testing and how it affects your test experience.

VIDEO WALKTHROUGH

One of the best ways to learn about the structure of the test is to watch the video walkthrough, available on the Duolingo English Test website (go.duolingo.com/walkthrough) or YouTube channel. You will see a test taker go through each portion of the test, including setup and upload.

TEST LENGTH

You will need about 1 hour of uninterrupted free time to take the Duolingo English Test.

ABOUT ADAPTIVE TESTING

The Duolingo English Test is a computer adaptive test, which means that the question sequence and difficulty changes for each test taker and test session. Because it is adaptive, the test has a few differences than other tests you may have taken.

Only one section

Unlike other tests, all graded questions are integrated in a single section. Different questions will appear one after another. You will not know which type of question will be asked next.

Varying difficulty

The difficulty of the question changes dynamically throughout the test. Therefore, some questions may seem easier or harder than others—that is normal!

© Duolingo, Inc. All rights Reserved | Mar. 2021

Adaptive length

There is no set number of questions. The test ends when the grading engine is confident in your score.

Unique experience

The test questions draw from an extremely large pool. On average, it would take more than 1,000 tests to see a question repeated.

HOW THE TEST IS SET UP

Once you begin the test, you'll be guided through three different sections.

1. Introduction and onboarding ~5 minutes
    - Ensure your computer's camera, speakers, and microphone are functioning properly.
    - Submit your government-issued photo ID.
    - Review the test rules and requirements.

2. Graded computer adaptive test ~45 minutes
    - Measures your English skills through short question types.
    - Test questions are administered randomly.
    - Question difficulty changes based on your performance.

3. Ungraded video and writing sample ~10 minutes
    - You will be shown two questions, from a pool of hundreds, and given 30 seconds to choose which one to answer.
    - Video speaking sample allows for a 1–3 minute response, and the writing sample allows for a 3–5 minute response.
    - You can review your responses to the video interview and writing prompts before sharing with institutions.

Understand the test questions

Overview
In this section, you will learn about the different types of questions you'll see on the Duolingo English Test. The description of each question type will have important information and tips on how to respond.

GENERAL TIPS

There are some good strategies and habits that apply to all the question types on the Duolingo English Test. They include test-taking strategies, writing tips, and speaking tips.

Test-taking strategies

- Use all of the time that you have available to answer a question. You will not receive a better score for answering questions faster.
- If you can, give longer responses than is required. For example, write more than 50 words or speak longer than 30 seconds. If you are using English effectively, and your response is relevant to the question, a more developed answer could help you achieve a better score.
- You will not be penalized for mistakes until you click NEXT to submit your answer and move on to the next item, so take the time to make any corrections. You can't return to a question once you have clicked NEXT.
- Try not to look at the timer too often, because it can distract you from effectively responding.
- Leave time at the end of each question to check your response.

Writing tips

- Use proper spelling, grammar, punctuation, and capitalization. The Duolingo English Test accepts both American and British spelling. The only exception is the **Read and Complete** question type, which uses American spelling only.
- Vary your sentence structure and word choice as much as possible. Using diverse, more sophisticated vocabulary and grammar can help you achieve a better score.

© Duolingo, Inc. All rights Reserved | Mar. 2021

Speaking tips

- Speak loudly, clearly, and at an understandable pace.
- You will not have a chance to re-record your response. So even if you make a mistake, just keep going.
- Make sure you don't submit your recording until after you have finished your entire response.
- Just like with writing, vary your sentence structure and word choice as much as possible.

ABOUT THE QUESTION TYPES

Now you will learn all about the types of questions on the test. For each question type, you will see a few different components:

- Example: an image of a real question from the test.
- Directions: information about what you're being asked to do.
- Time limit: the amount of time you have to complete the task.
- Tips: advice for each question, separated into two categories:
  - Good test-taking strategies and language habits
  - How you can interact with the test from your computer
- Subscores: the subscores that are being assessed on this question.
  - There are four subscores: Comprehension, Conversation, Literacy, and Production.
  - If you aren't familiar with the subscores on the Duolingo English Test, you can learn about them in the "WHAT YOUR SCORES MEAN" section of this guide, or at englishtest.duolingo.com/scores.

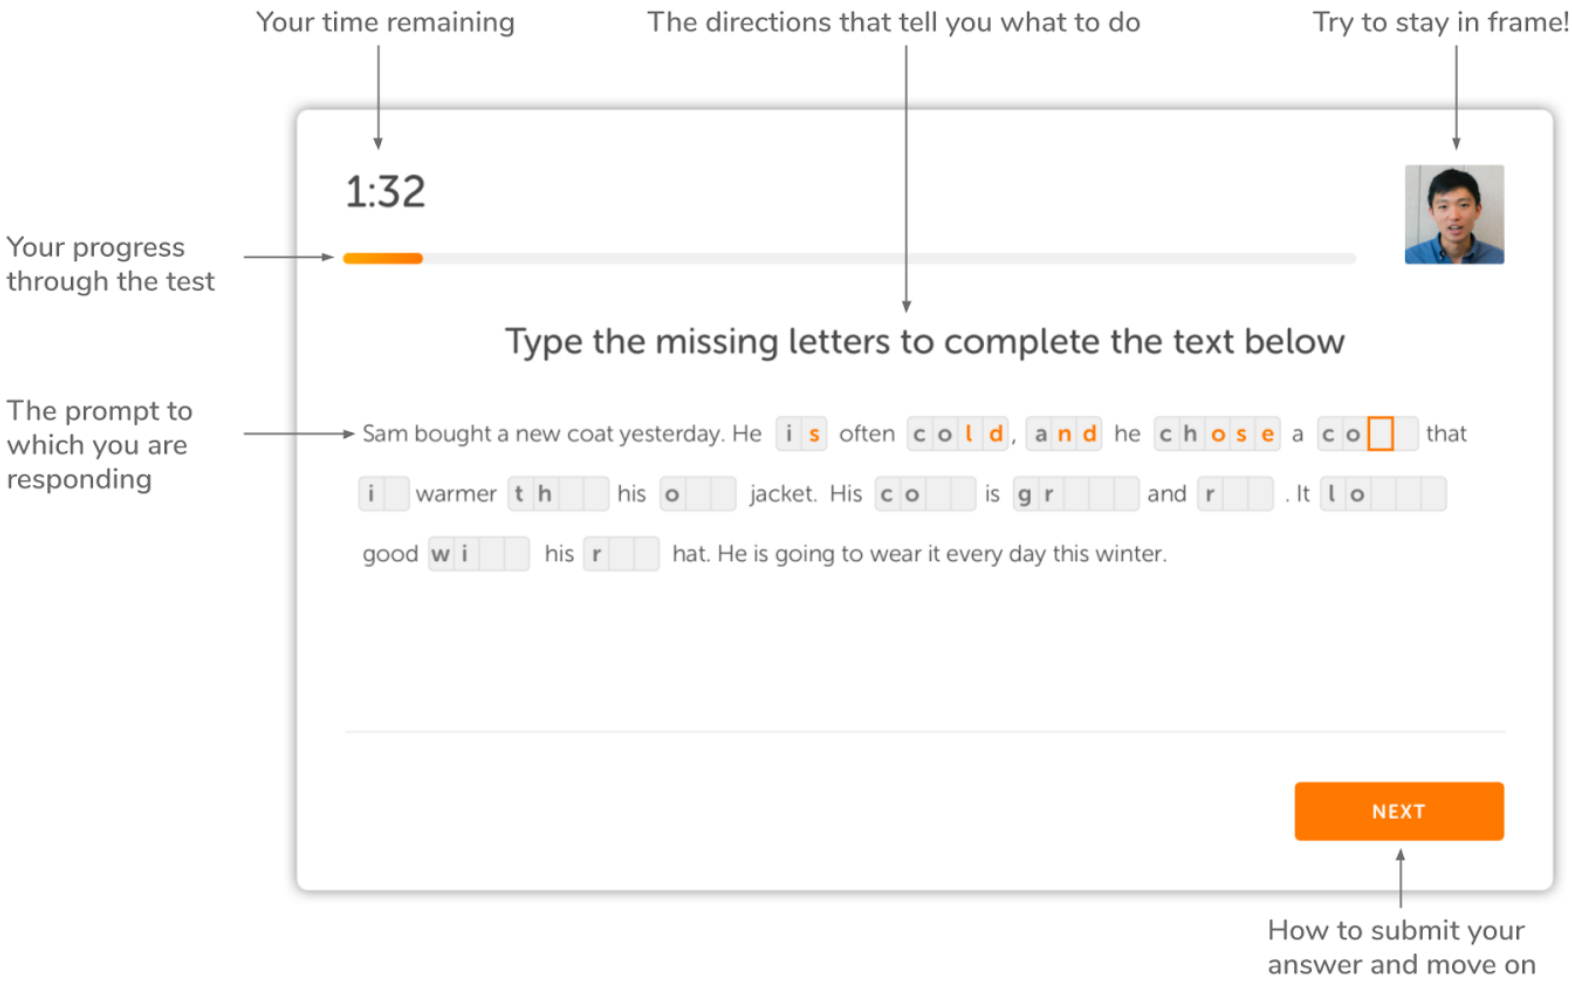

IF YOU SEE A QUESTION TYPE YOU DON'T RECOGNIZE

- Duolingo is always working on improving the test. This includes researching new question types that you may see on the practice test or certified test. This is a common practice and helps improve the test for everyone. Don't worry, these questions don't affect your score or the time available for your responses. Please reach out to our support team with questions.

HOW THE QUESTIONS ARE SCORED

Question Types 1–5

For **Read and Complete**, **Read and Select**, **Listen and Select**, **Listen and Type**, and **Read Aloud**, test questions are graded automatically through special procedures developed specifically for each question type. These procedures compare your responses to correct responses, then evaluate the similarities and differences. You can read about how this works in the Duolingo English Test Technical Manual available at englishtest.duolingo.com/research.

The good news: if your answer isn't entirely correct, you will receive partial credit. You won't be penalized more for entering an incorrect response rather than skipping the question. For example, in **Read and Complete**, you will receive the same score for a blank or an incorrect response. For **Listen and Type**, you will be penalized more for missing a word than mistyping the word. In other words, it is always best to try to answer a question.

Question Types 6-10

Write About the Photo, **Speak About the Photo**, **Read Then Write**, **Read Then Speak**, and **Listen Then Speak** are open response questions, and your answer will be evaluated by a grading engine. The grading engine is trained to understand your English proficiency just like expert human raters. Some of the aspects it evaluates include:

- the correctness of your grammar (grammatical accuracy)
- the variety and level of your grammar (grammatical complexity)
- the level of vocabulary used (lexical sophistication)
- the variety of word choice (lexical diversity)
- how well you answer the question that was asked (task relevance)
- how much you can say or write in a limited time (fluency)
- the pronunciation and pace (acoustic features; this one is for speaking questions only)

Keep in mind that although the test is scored by computer algorithms, multiple human proctors will see video recordings of your responses.

Prepare your environment

Overview
In this section, you will learn how to set up the environment and equipment you will need to take the test. You will also learn about the Duolingo English Test desktop app.

HOW TO SET UP YOUR SPACE

One of the advantages of the Duolingo English Test is that you can choose your own testing environment. There are a few general guidelines to help you consider where to take the test.

Comfortable

Take the test when and where you feel most comfortable. This doesn't have to be in your own home, as long as you can ensure privacy.

Quiet

You don't want any background noise to interfere with your responses or distract you.

Private

Make sure no one disturbs you. Tip: put a "do not disturb" note on the door!

Bright

The proctors will need to be able to clearly see and hear you throughout the test, so make sure the room is not too dark.

EQUIPMENT YOU NEED

Computer

In order to take the Duolingo English Test, you will need a computer with a functioning microphone, speakers, and camera. Your camera should be on the top-center of your monitor or screen.

Valid identification

In order to receive certified results, the Duolingo English Test requires a government-issued photo ID. You will need to have your actual, physical ID ready when taking the test. During the setup section of your test, you will need to submit a photo of this ID. You may not use copies and pictures of the ID card or passport. You must be holding up the actual ID. If you have questions about whether your ID will be accepted, you can consult englishtest.duolingo.com/ids.

Internet connection

You will need an internet connection with at least 2 Mbps download speed and 1 Mbps upload speed. You can type “internet speed test” into most search engines and find a quick and free way to test your speed. You will also need a small amount of storage on your computer to download the Duolingo English Test desktop app.

ABOUT THE DESKTOP APP

All Duolingo English Tests are administered through the Duolingo English Test desktop app. This is a better, more stable experience for test takers compared to taking the test in a browser. The desktop app provides a secure and reliable environment for the duration of the test.

Installing the App

You can download the desktop app right before you take your test, after purchasing. You will need:

- an internet connection
- a small amount of space available (241 MB on Mac, 49 MB on Windows)

Check out the "Rules and Requirements Section" of our online FAQ (englishtest.duolingo.com/faq) for step-by-step instructions on how to install the app based on your operating system.

HOW TO PURCHASE THE TEST

Go to the Duolingo English Test homepage and login to your account. If you don't have an account, you can create one for free by signing up with a valid email address at englishtest.duolingo.com.

In the section that says "Purchase a Test," click the button that says "BUY NOW." You will be prompted to enter your information in an online checkout. Most major credit cards are accepted, as well as some other payment methods depending on your location. During this step, you can also apply a coupon if an institution has provided you with one. Click "Apply Coupon."

You have 90 days from the time of purchase to begin your test.

ABOUT ACCOMMODATIONS

If you need to request accommodations for different abilities, the Duolingo English Test support team will work with you to accommodate your request if possible. These are evaluated on a case-by-case basis.

In order to request an accommodation, please contact englishtest-support@duolingo.com with the subject "Accommodation Request" detailing your request. A member of the support team will reply within 24 hours.

Test security

Overview
In this section, you will learn about why test security is important, and how your test is kept safe and fair. You will also learn about the rules that test takers are required to follow. You should review these rules multiple times—understanding these before taking the test helps ensure that your results will be certified.

WHY SECURITY MATTERS

Duolingo recognizes that reliable and secure test results are very important to both test takers and institutions. For that reason, the integrity of the Duolingo English Test is the highest priority.

Since the Duolingo English Test is administered in a unique way, it calls for innovative security protocols. As a result, the Duolingo English Test integrates a series of advanced security measures so that you can be confident in the results.

HOW YOUR TEST STAYS SECURE

Secure design
The adaptive test gives a unique test to every student. Someone would have to take the test more than 1,000 times to see a question repeated.

Remote proctoring
Human proctors, with the help of AI, examine each test session for more than 75 different behaviors in multiple, independent rounds of review.

AI and data forensics
Millions of data points collected from tests over time train security algorithms to help detect rule breaking and identify patterns of suspicious behavior.

ID verification
A combination of computer vision AI and trained proctors verify test takers' identity.

Test lockdown
The test is cancelled if test takers attempt to access external applications or plugins during the test.

Video sample
Accepting institutions can review a short video and writing sample from each test taker's test session.

RULES TO KNOW AND FOLLOW

Read these rules multiple times before the test, and make sure you follow them. Our proctors will disqualify your test and your results will not be certified if any of these rules are broken.

You must be alone in a quiet, well-lit room. You cannot communicate with another person at any point during the test.

- Explanation: Test proctors need to make sure that you are not receiving help from any other person. They will also need to hear your responses very clearly.

Your ears must be visible and uncovered. You cannot use headphones or earphones.

- Explanation: Test proctors need to be sure that the only sound you are hearing during the test taking experience is coming from the test itself.

Your face must be visible and unobscured.

- Explanation: This helps confirm your identity as well as make sure you are the person completing every response.

No outside materials are allowed, including mobile devices, notes, or textbooks.

- Explanation: Just like in a testing center, you will only be using your own knowledge and skills to answer the questions.

No writing utensils or paper. No note taking.

- Explanation: Unlike a test center, where paper notes can be disposed of safely, the Duolingo English Test is virtual. The test is designed so that you will not need to take notes.

Do not leave the test window on your app for any reason. Do not look away from the screen.

- Explanation: You should always be looking at the test, not any outside sources.

WHEN RULES ARE BROKEN

If you violate any of the rules of the Duolingo English Test, Duolingo reserves the right to not certify your test results, or to invalidate any previously certified results, without providing a refund. Depending on the severity of the violation, test takers may also be banned permanently from taking the Duolingo English Test again.

Understand your scores

Overview
In this section, you will learn all about score reporting, including what your scores mean, where to find them, and how long they are valid. You will also learn how the Duolingo English Test uses subscores.

HOW TO ACCESS YOUR SCORE REPORT

After your test has been scored and reviewed, you will receive an email notification that your scores are ready. You can then log in to englishtest.duolingo.com to access your report.

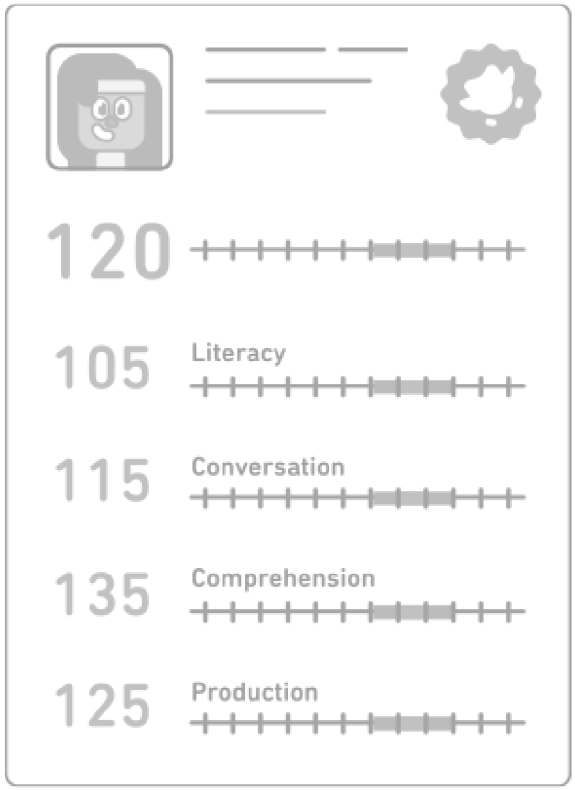

WHAT YOUR SCORES MEAN

On your score report, you will see both your overall score and your subscores. If you want to see what a score report looks like, check out the example score report in the appendix of this guide.

Overall score

Your proficiency is reported as a holistic score on a scale from 10 to 160 in 5-point increments. The Duolingo English Test score scale is aligned to the Common European Framework of Reference (CEFR), an international standard of language proficiency. In the appendix of this guide, you can see how your score on the Duolingo English Test compares to CEFR levels, as well as TOEFL iBT® or IELTS® Academic scores.

Different institutions have different requirements for admission. Be sure to consult the university's website to see their admissions thresholds.

© Duolingo, Inc. All rights Reserved | Mar. 2021

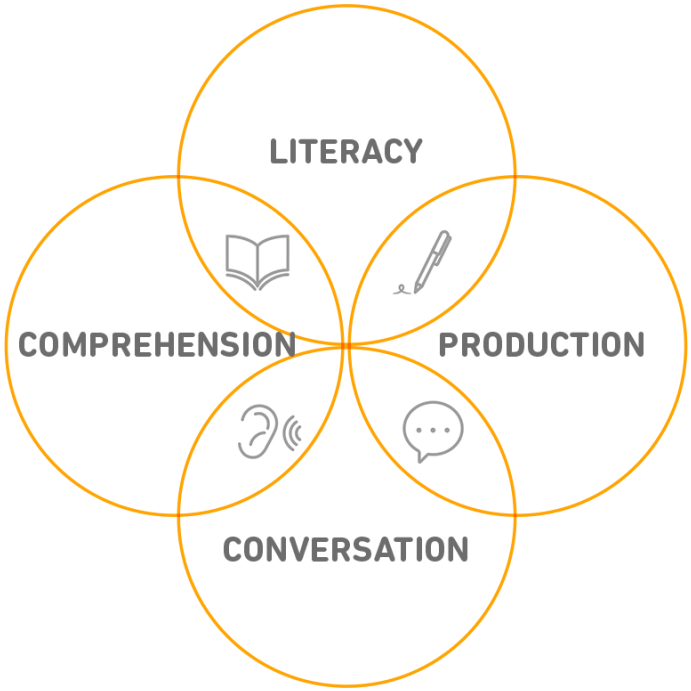

Subscores

Literacy
The test taker's ability to read and write.

Comprehension
The test taker's ability to read and listen.

Conversation
The test taker's ability to listen and speak.

Production
The test taker's ability to write and speak.

Why are these different from other tests?

While reading, writing, speaking, and listening are important language components, research shows that combined skills can better represent how language is used in real life. Effective and natural language use requires people to simultaneously employ multiple skills—especially in academic settings.

How are subscores calculated?

The overall score and subscores are estimated independently and are weighted combinations of the questions that contribute to each score. Your overall score is not an average or sum of the individual subscores.

© Duolingo, Inc. All rights Reserved | Mar. 2021

HOW LONG RESULTS ARE VALID

Validity Period

Certified scores are valid for two years.

Certificates

To protect you and your test's validity, the only way to send your scores is through your online account.

WHEN TO RETAKE THE TEST

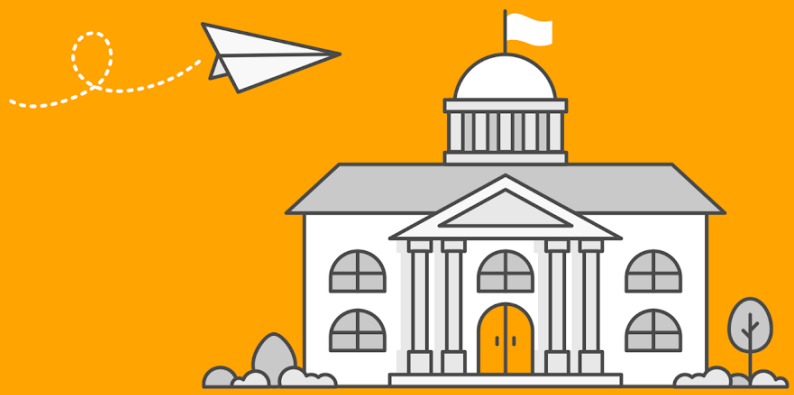

If you receive certified results but want to retake the test for any reason, you may take a second test within 30 days of the date of your first certified test. If you complete a test and your results are not certified, it will not count against this two-test limit. You may also take additional tests outside of that 30-day period.

Overview
In this section, you will learn what to do next after you have received and understood your scores.

HOW TO SEND YOUR RESULTS

When your scores are ready, you will receive an email alert.

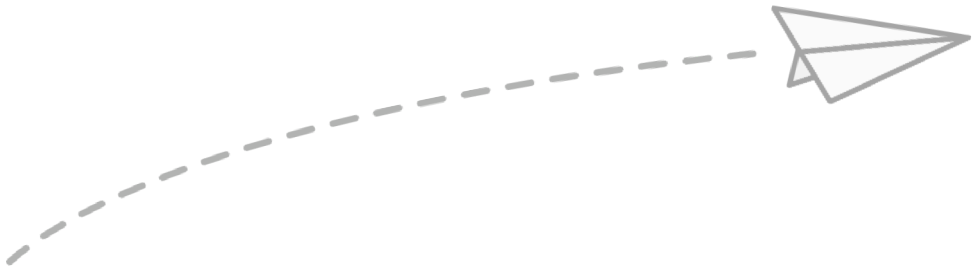

Log in to your Duolingo English Test account. Once logged in, you will be able to submit your official scores to any institutions of your choosing.

You can send an unlimited number of results to institutions. There is no additional fee, and you don't need to mail them since they are sent electronically. Once you send the scores to your institutions, they will have immediate access to them.

HOW INSTITUTIONS USE RESULTS

Most institutions and organizations use the Duolingo English Test as a measure of English proficiency, comparable with other English proficiency tests that exist. Just like with those other tests, many institutions often set a minimum score threshold. Check each university's website for information about their requirements.

In addition to your English proficiency, the Duolingo English Test provides more information about you as a candidate through your speaking and writing samples. Read more about that in the next section.

© Duolingo, Inc. All rights Reserved | Mar. 2021

WHAT INSTITUTIONS SEE

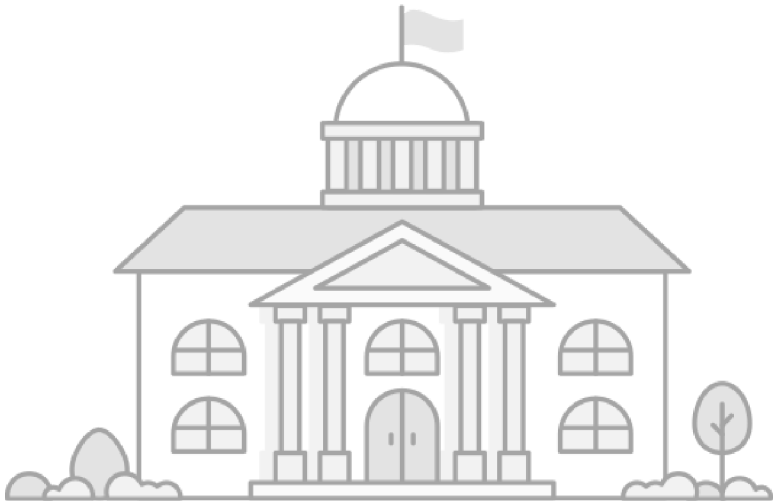

Your Score Report

Institutions will have access to the same information that you have in your own score report. They will see your overall scores and your subscores.

Writing and Speaking Samples

Institutions will also be able to read your extended writing sample and watch your speaking sample. Please note that the speaking sample is sent as a video recording, so they will be able to see you.

Institutions use these ungraded sections as a way to get to know you better and learn more information about your English skills. While these two sections don't affect your overall score, they are important components of your test that show off your unique personality and skills as an admissions candidate. Make sure to choose a topic you are interested in or passionate about. Do your very best to show off your skills to an admissions committee!
