

presentation **PLUS**

Quick Guide to Presentation Plus

Welcome to Presentation Plus, the next generation planning and presentation tool for teachers. Follow the instructions below to get started.

1. Insert the disc and run the installer setup file on your Windows/Mac computer to begin the installation process.

2. You will see a series of screens. These will guide you through the installation process. You must accept the license agreement. You must also choose where you want to install Presentation Plus, and if you want a desktop shortcut.
3. After you have completed these steps Presentation Plus will begin to install. This may take several minutes.
4. When the installation is completed you can launch the application directly, or from the shortcut on your desktop (or via Launchpad for Mac users).
5. When presentation Plus opens, click on one of the book icons in the top navigation bar on the left. Choose a unit and a page from the menu. The other icons (media library, resources, etc.) will then be active and available.

6. You can now access the Presentation Plus Help Guide. Click on the resources icon and then click on Help Guide.
